Greetings.

We are happy to inform that Agricultural College and Research Institute (AC&RI), Madurai is celebrating Golden Jubilee Year from August 2014 to August 2015.

In commemoration of Golden Jubilee Year celebration, Department of Agricultural Entomology, AC&RI, Madurai is organizing an International Conference on "Innovative Insect Management Approaches for Sustainable Agro Eco System (IIMASAE)" during January 27-30, 2015. Please find enclosed the brochure and registration form for details.

On behalf of the Patron, the Vice-Chancellor, TNAU and Organizing Committee, we seek your presence, felicitations and valuable support to successfully organize IIMASAE. We request to send your research papers and present the same in IIMASAE. Please encourage your past/present students also to attend IIMASAE and present their research papers.

We request also to visit website of Conference (<http://sites.tnau.ac.in/icentomdu>) for submission of papers online and further details. Please feel free to contact Organizing Secretary ([icento.tnau.edu@gmail.com](mailto:icento.tnau.edu@gmail.com) OR [agentomac@tnau.ac.in](mailto:agentomac@tnau.ac.in) or 09865010746) for any clarification

## About the Tamil Nadu Agricultural University

Tamil Nadu Agricultural University (TNAU) with its 11 constituent colleges, 7 affiliated colleges, 36 research stations and 14 farm science centers is a leading agro technology provider of India and TNAU graduates are recognized throughout the world. The University is offering 13 undergraduate, 40 graduate and 26 doctoral degree programs.

## About the College

The Agricultural College and Research Institute (AC&RI), Madurai is situated at the foothills of Yanamalai, 12 km away from Madurai City on Madurai-Trichy National Highway. It has 12 departments, 125 scientists and 154 ha land area to facilitate cutting edge research on crop improvement, management and protection on rice, cotton, pulses, sugarcane and horticultural crops. There are 650 undergraduate, graduate and Ph.D students in the campus. It is celebrating its golden jubilee this year.

## About the Department

The Department of Agricultural Entomology since inception is involved in teaching Entomology and Nematology courses to undergraduate agricultural, horticultural and home science students and to graduate and Ph.D. entomology students. Host plant resistance, biological control, integrated pest management and technology transfer for enhancing the productivity and livelihood of farmers are the research and outreach programmes.

## About the Conference

International Conference on IIMASAE aims to bring together global entomologists including research scholars from leading academic institutes and research organizations to exchange and share their experiences and research results on insect biodiversity, biosystematics, insect ecology, ecological engineering methods, host plant resistance, biopesticides, biocontrol agents, transgenics, biotechnological methods, toxicology, invasive pests, urban and storage pests, social, productive and beneficial insects, integrated pest management (IPM) and devices and insect management models. It provides an interdisciplinary forum for researchers, educators and stakeholders to present and discuss most recent entomological innovations, trends, and challenges encountered, and solutions adopted in the field of Entomology. The conference will feature concurrent sessions, plenary session and working group meetings.

## Themes and Technical Sessions

- ⊗ Biodiversity and biosystematics
- ⊗ Ecology and ecological engineering methods
- ⊗ Botanical biopesticides
- ⊗ Chemical ecology and pheromones
- ⊗ Host plant resistance, transgenic and biotechnological methods
- ⊗ Entomophages and entomopathogens
- ⊗ Insecticide toxicology
- ⊗ Invasive insect pests and their management
- ⊗ Urban, Public health and storage
- ⊗ Social, productive and beneficial insects
