Organised by

Department of Bioenergy  
Agricultural Engineering College and  
Research Institute  
Tamil Nadu Agricultural University  
Coimbatore - 641 003

## About the Institute

Tamil Nadu Agricultural University (TNAU) has a glorious history of more than 100 years and it has made a renaissance in farmer's lives through many research and developments. At present, TNAU is rated as the best Agricultural University in the country for its excellence in education, research and extension. Agricultural Engineering College and Research Institute (AEC&RI) was established in 1972. It is one of the constitute colleges of TNAU. AEC&RI, Coimbatore has pioneered in the field of Bioenergy, Food and Agrl. processing, Environmental Engineering, Soil and water conservation and Agricultural Machinery.

## About the Department

Department of Bioenergy was established in 1982. Bioenergy acts as a bridge between the beneficiaries and industries. We are also providing technical assistance to the farmers, industries and educational institutions that link them to the renewable energy world. We offer courses related to thermochemical and biochemical conversion technologies, biofuels, solar energy, wind energy, energy auditing, CDM for all under graduates, post graduates and doctorates.

Bioenergy is equipped with renewable energy park that includes biogas plants, briquetting plant, pilot biodiesel production plant, ethanol fermentation unit, gasifiers, pyrolysis reactors and solar thermal and PV energy gadgets

## About the Conference

The national conference "Green fuels from Biomass – Biorefinery approach" supported by MNRE, GOI is to be held on 8<sup>th</sup> November 2014 at the Dept. of Bioenergy, AEC&RI, TNAU, Coimbatore. In this conference the Advisor to Ministry of New and Renewable Energy, GOI, New Delhi, bankers from NABARD, leading manufacturers of renewable energy gadgets, experts of TNAU and other institutions are delivering lead expert lectures for the benefit of farmers, educational institutions and public about the loan and subsidies for the adoption of renewable energy gadgets & technologies developed in TNAU including training provided for various stakeholders.
