Wind direction	East	East	East	East	East

The sky will be partly cloudy. No rainfall is expected on next five days.

Weather based Agro-Advisories

Imp. Crop: Rice

Thaladi: Maturity & Harvest stage;

Rice fallow pulses: Vegetative & Flowering stage.

- ❖ Harvesting of the matured Thaladi paddy can be taken up by using the dry weather expected. Harvested paddy seeds may be dried at moisture less than 13 % using the current dry weather condition to prevent stored pests damage.
- ❖ In rice fallow black gram, leaf caterpillar damage is noticed. To manage this, spray chlorpyrifos at 500 ml/acre.
- ❖ In rice fallow black gram, foliar spray Pulse wonder @ 2 kg/acre once at flowering or DAP 20g/lit once at flowering and 15 days thereafter

Livestock

- ❖ Livestock can be allowed for grazing after dew dried off to avoid parasitic infestation.
