## Agro Advisory

- ✓ Rainfall is continuing for next four days. Provide adequate drainage to irrigated maize, cumbu and sorghum.
- ✓ Considering the anticipated rainfall provide adequate drainage to recently planted turmeric rhizome to avoid rhizome rot.
- ✓ Rainfall with increased wind speed is expected and hence propping may be done in 5 months old banana and sugarcane.
- ✓ Provide deep basin one meter away from the coconut trunk to harvest the anticipated rainfall.
- ✓ Anticipated heavy rainfall with lightning and thunder, hence prevent the animals from grazing outside.
- ✓ Heavy rainfall is anticipated; hence, provide sufficient drainage facility to harvest excess rainwater in the farm pond.

## SMS advisory

- ✓ Heavy rainfall is anticipated; hence, provide sufficient drainage facility to harvest excess rainwater in the farm pond.
