Wind direction	South	South	South	South	South

The sky will be partly cloudy. A light rainfall 2-3 mm is expected on next two days.

Weather based Agro-Advisories

Crop: Rice and Irrigated blackgram

- ➤ In rice cultivation 22 kg urea + 18 kg gypsum + 4 kg neem cake mixed well and keep it over night and add 10 kg MOP + 125kg of Super phosphate per acre as basal application during main field preparation is essential.
- ➤ In irrigated blackgram 22 kg urea, 125 kg superphosphate, 17 kg MOP, 45 kg gypsum per acre as basal application is to be done.
- ➤ In rice fallow cotton and irrigated blackgram, occurrence of aphid, thrips, mite, hoppers and white flies are being noticed due to the prevailing hot weather. To control this spray azadirachtin 0.03% (3 ml / litre of water) along with sticking agent in the morning or evening using hand sprayer, If damage is more spray imidacloprid 200 SL @ 40ml / acre with 200 litres of water.

Livestocks

- ➤ To prevent the loss of milk production of the cattle due to heat stress, add 100 gram of baking soda to the feed.
- ➤ Increase the quantum of amino acids, vitamins and mineral content of cattle feed so as to compensate the less quantity of feed consumed by cattle in summer.
- Artificial insemination should be done before 9.30 am in summer season.
