-------------------------	--

**Weather Based Agro-Advisories : Important Crops : Lemon & Animal husbandry**

**Due to prevailing weather condition there is incense of Fruit sucking moth in Acid lime.** Keep the field clean without weed. Bait with fermented molasses plus Malathion 50 EC at the rate of 1 ml/lit. Bag the fruits with polythene bags punctured at the bottom. To control, apply smoke and set up light traps or food lures (pieces of citrus fruits).

During the summer season, snails, germs and larvae found in the dry pond water can cause health damages to the cattle, so farmers are advised, not to allow their cattle to drink water from dry / dirty water ponds.
