Advisory	5 days. Wind expected with the speed of 8-14 Km/h.

Weather Based Agro - Advisories : Important Crops : Brinjal & (Animal husbandry)

Prevailing weather condition the Brown leaf hopper infestation are slightly found in Brinjal. The symptoms are, reduction in size of leaves, Shortened petioles, Excessive growth of branches general stunting of plants, Conversion of floral parts into leafy structures, Rare Fruiting. Remove the infected plants and destroy them. Spray any one of the following Methyl parathion 50gms /1 ltr or Dimethoate 30gms/1 ltr. As preventive measure, before transplantation dip the seedlings in 20gms Carbofuran 50 STD solution.

During the summer season, snails, germs and larvae found in the dry pond water can cause health damages to the cattle, so farmers are advised, not to allow their cattle to drink water from dry / dirty water ponds.
