Agro meteorological advisory for Nilgiris district

- ✓ Moderate rainfall is expected in the Nilgiris district for next five days
- ✓ To maintain milk yield in milch animals, keep the animals cool by sprinkling water on milch animals during daytime in summer season. Azolla can be used as feed during summer season.
- ✓ Due to expected rainfall in the coming days, to prevent collar rot disease in beans, soil drenching with copper oxy chloride 1 g/lit of water may be followed.
