Weather Based Agro-Advisories : Important Crops : Banana & Animal husbandry

Due to current weather the incidence of Aphid may expected in Banana. The pest is the vector for Bunchy top virus disease. To control spray any one of the following systemic insecticides Phosphamidon 1 ml/lit or Methyldemeton 2 ml/lit. The spray may be directed towards crown and pseudostem base upto ground level at 21 days interval atleast thrice.

Apply Butox solution (2ml in one litter water) externally to remove ecto-parasites in sheep & goats.
