### **Agro Advisory**

| Crop   | Stage           | Advisory  |  |  |  |  |
|--------|-----------------|---|--|--|--|--|
|        |                 | Postpone / avoid irrigation to all crops.                             |  |  |  |  |
| Gen    | neral           | Provide adequate drainage facilities to lands liable to water         |  |  |  |  |
|        |                 | stagnation.   |  |  |  |  |
|        | Main field      | If leaf folder symptoms found (folded leaf, white scrape on leaf)     |  |  |  |  |
|        |                 | apply Carbosulfan 6% G 16.7 kg/ha or Cartaphydrochloride 50 %         |  |  |  |  |
|        |                 | SP 1000 g/ha as soil application or Beauveria bassiana 5 gram / 1     |  |  |  |  |
|        |                 | litter after rain cessation. Beauveria bassiana is available at Tamil |  |  |  |  |
|        |                 | Nadu Rice Research Institute – Aduthurai.                             |  |  |  |  |
| D'     |                 | The prevailing weather condition is favourable for gall midge         |  |  |  |  |
| Rice   |                 | infection. It leads to the formation of onion like leaf and prevents  |  |  |  |  |
|        |                 | panicle formation. To control this apply chloripyriphos 20 EC 500     |  |  |  |  |
|        |                 | ml/ha or Beauveria bassiana 5 gram / 1 litter after rain cessation.   |  |  |  |  |
|        |                 | Sheath blight is being noticed in the paddy field due to prevailing   |  |  |  |  |
|        |                 | weather condition. To control this, spray carbendazim 200g/ac or      |  |  |  |  |
|        |                 | propiconozole 200 ml/acre in 200 liter water after rain cessation.    |  |  |  |  |
|        | Cow and<br>Goat | The prevailing night time temperature is favorable for pneumonia      |  |  |  |  |
|        |                 | formation in cattle. To reduce the risk of pneumonia, cow, goat and   |  |  |  |  |
| Cattle |                 | calves shouldn't be left out in open condition during night. A        |  |  |  |  |
|        |                 | suitable night time shelter with enough heating provision must be     |  |  |  |  |
|        |                 | given.  |  |  |  |  |

## **SMS advisory**

Postpone irrigation to all crops and provide adequate drainage facility to cropped fields wherever essential.
