Average wind speed is expected to be around 8 - 10 km per hour. The wind direction will be east north east.

Agro Advisory

Crop	Stage	Advisory
General		Postpone irrigation to all crops.
		Avoid application of fertilizers and insecticides to the crops.
Rice	Harvest	Farmers are advised to harvest matured paddy immediately in order to protect from expected rainfall.
Cattle	Cow and Goat	The prevailing night time temperature is favorable for pneumonia formation in cattle. To reduce the risk, suitable night time shelter with enough heating provision must be given.

SMS advisory

Farmers are advised to harvest matured paddy immediately in order to protect from expected rainfall.
