Average wind speed is expected to be around 8 - 12 km per hour. The wind direction will be west south west.

Agro Advisory

Crop	Stage	Advisory
General		Considering expected rain, postpone/avoid chemical application / Spray.
Rice	Main field	After rain cessation, apply butachlor at 1.0 lit/ac or anilophos 500 ml/ac mixed with 20 kg sand and broadcast uniformly to control weeds.
Rice	Main field	Leaf mite incidence is being noticed in the kuruvai paddy fields due to prevailing weather condition. Spray Dicofol @ 2.5 ml/ liter or fenazaquin 10 EC 2 ml/ liter, to control this pest after rain cessation.
Cotton	Vegetative	prevailing weather condition favor cotton mealy bug. In order to control this, spray dimethoate or profenophos @ 2ml / litre. Wherever necessary use botanical insecticides like neem derivatives such as neem oil 2% NSKE 5% and Fish oil rosin soap 25g/litre of water after rain cessation.
Banana		Provide support with wooden poles to avoid lodging of tree due to rain and wind.
Cattle	Cow	Ensure vaccination of cows and buffalos against foot and mouth disease before monsoon.

SMS advisory

Due to prevailing weather condition favor cotton mealy bug. In order to control this, spray dimethoate or profenophos @ 2ml / lit.
