### **Message**

Agricultural Statistics at a Glance is a flagship publication of the Directorate of Economics & Statistics, Department of Agriculture & Cooperation containing data on a wide range of economic indicators, particularly in the agriculture sector.

This compilation is being issued as a priced publication with a view to ensuring its wider circulation. It is simultaneously also being released electronically on the website of the Department of Agriculture & Cooperation [www.agricoop.nic.in](http://www.agricoop.nic.in).

I compliment Shri R. Viswanathan, Economic and Statistical Adviser, Dr. B.S. Bhandari, Adviser, Shri Nagender Jatav, Assistant Economic Adviser and their team of officers for their efforts in bringing out the Agricultural Statistics at a Glance 2012 in a record time. I trust the publication will continue to serve as a reliable source of information on agriculture and will be useful to academicians, researchers and policymakers.

**Foreword**

Agriculture has been a way of life and continues to be the single most important livelihood of the masses. Agricultural policy focus in India across decades has been on self-sufficiency and self-reliance in foodgrains production. Considerable progress has been made on this front. Food grains production rose from 52 million tonnes in 1951-52 to 257.44 million tonnes in 2011-12. It is important to throw light on diverse aspects of Indian agriculture through the prism of systematic organization and presentation of statistical data. The Publication "Agricultural Statistics at a Glance 2012" compiled by the Directorate of Economics and Statistics, Department of Agriculture and Cooperation presents a comprehensive picture of the progress made by the agriculture sector at all India level as well as across the States.

This publication provides statistical data on a wide range of agricultural commodities, details of land use, agricultural inputs both across states and overtime. I must put on record that this publication has been brought out in a record time. I am sure it will be of immense utility to the policy makers, researchers and those who have interest in the agriculture sector.

(S. Bhavani)

## **Preface**

The Directorate of Economics and Statistics collects, collates and analyses data on various aspects of agriculture with a view to assist in policy formulation. It brings out Agricultural Statistics at a Glance which provides a wide range of data on diverse aspects of Indian Agriculture that are greatly useful to economists, policy makers, researchers, agriculture scientists, students and the public at large. It will also meet the needs of different Government and Non-Government organizations working in the agricultural sector of the country. The publication contains data on crop production and productivity across States, markets and prices, terms of trade, price support and procurement, domestic and international trade, credit, insurance etc.

This issue has been updated with latest available data. Few new tables on Index Numbers of Area, Production and Yield of Principal Crops, Pilot Weather Based Crop Insurance Scheme (WBCIS), Pilot Modified National Agricultural Insurance Scheme (MNAIS) and Pilot Coconut Palm Insurance Scheme (CPIS) have been included. Like in the past, soft copy of this publication has also been uploaded at our website: [www.agricoop.nic.in](http://www.agricoop.nic.in) & <http://eands.dacnet.nic.in/>.

I record my gratitude to all the officers of Directorate of Economics and Statistics for compiling the publication and other Ministries/Organizations for providing statistical data included in this publication. I look forward to comments/ suggestions from users so as to improve its utility.

(R. Viswanathan)

**Publication**

Shri Narain Singh	Additional. Economic Adviser
Shri S. V. Prasad	Sub - Editor

## **Acronyms**

AAY	– Antyodaya Anna Yojana
AE	– Advance Estimate
AGDP	– Gross Domestic Product From Agriculture
Ant.	– Anticipated
APL	– Above Poverty Line
A & N	– Andaman & Nicobar
BE	– Budget Estimates
BPL	– Below Poverty Line
CACP	– Commission For Agricultural Costs and Prices.
CBB	– Commercial Bank Branch
CCE	– Crop Cutting Experiments
CCI	– Cotton Corporation of India
CD	– Community Development
CDSBO	– Crude Degummed Soyabean Oil
CES	– Crop Estimation Surveys
CFA	– Central Financial Agency
CIF	– Cost, Insurance & Freight
CIP	– Central Issue Price
CPI-IW	– Consumer Price Index for Industrial Workers
CWWG	– Crop Weather Watch Group
DAC	– Department of Agriculture & Cooperation
DAP	– Di Ammonium Phosphate
DES	– Directorate of Economics and Statistics
E	– Estimated
EARAS	– Establishment of an Agency for Reporting of Agricultural Statistics
FAO	– Food and Agriculture Organisation
FAQ	– Fair Average Quality
F2	– Black Soil

F-414/H-777/J-34	– Cotton variety (of Medium Staple Length)
H-4/H-6	– Cotton variety (of Long Staple Length)
FCI	– Food Corporation of India
FDI	– Foreign Direct Investment
FFB	– Fresh Fruit Bunch
FOD	– Field Operations Division of NSSO
FRL	– Full Reservoir Level
FYM	– Farm Yard Manure
GCA	– Gross Cropped Area
GCES	– General Crop Estimation Survey
GCF	– Gross Capital Formation
GDP	– Gross Domestic Product
GNP	– Gross National Product
GSDP	– Gross State Domestic Product
Ha	– Hectares
HYV	– High Yielding Varieties
I	– Irrigated
IAS	– Improvement of Agricultural Statistics
ICOR	– Incremental Capital Output Ratio
ICS	– Improvement of Crop Statistics
K	– Potash
Kgs	– Kilograms
KMPH	– Kilometers Per Hour
KWH	– Kilo Watt Hour
LS	– Light Soil
LPCPD	– Litres per Capita Per Day
MSCCGMF	– Maharashtra State Co-operative Cotton Growers Marketing Federation
MIS	– Market Intervention Scheme
MSP	– Minimum Support Price
MSR	– Marketed Surplus Ratio
N	– Nitrogen

**ACRONYMS**

NA	– Not Available/Not Announced
NC	– Not Collected
NQ	– Not Quoted
NAFED	– National Agricultural Co-operative Marketing Federation of India Limited
NCAER	– National Council of Applied Economic Research
NDBB	– National Dairy Development Board
Neg.	– Negligible
NNP	– Net National Product
NR	– Not Recommended/Not Reported
NSA	– Net Sown Area
NSSO	– National Sample Survey Organisation
OECD	– Organisation of Economic Cooperation and Development
OPDP	– Oil Palm Development Programme
P	– Provisional/Phosphate
PACS	– Primary Agricultural Credit Society
Pd.	– Per day
PDS	– Public Distribution System
PLDB	– Primary Land Development Bank
PSE	– Producers Support Estimate
PSEs	– Public Sector Enterprises
PSS	– Price Support Scheme
QE	– Quick Estimate
R	– Revised
R&D	– Research & Development
R&M	– Rapeseed & Mustard
RMC	– Regional Ministers Conference
RE	– Revised Estimates
RRBB	– Regional Rural Bank Branch
SCB	-- State Cooperative Bank
SDP	– State Domestic Product

SASA	– State Agricultural Statistical Authority
SLDB	– State Land Development Bank
SRS	– Sample Registration Scheme
SSP	– Single Super Phosphate
T	– Target
T E	– Triennium Ending
TD-5	– A Variety of Jute
TPDS	– Targeted Public Distribution System
TRQ	– Tariff Rate Quota
TRRM	– Tropical Rains Measuring Mission
TT	– Tentative Targets
U.K.	– United Kingdom
USA	– United States of America
UI	– Unirrigated
UT	– Union Territory
WPI	– Wholesale Price Index
WTO	– World Trade Organisation
Y	– Yield (Index Number of Yield) per hectare

4.28 (b) Area Target and Achievement under Oil Palm Development Programme OPDP/ISOPOM .....	127
4.28 (c) Area Covered Under Oil Palm Development Programme.....	129

#### **4 (A) Yield Rates of Principal Crops**

4.1.1 All-India Estimates of Yield of Major Crops .....	130
4.1.2 State-wise yield of Kharif Foodgrins .....	131
4.1.3 State-wise yield of Rabi Foodgrins .....	132
4.1.4 State-wise yield of Total Foodgrins .....	133
4.1.5 State wise Yield of Rice .....	134
4.1.6 State wise Yield of Wheat .....	137
4.1.7 State wise Yield of Bajra .....	138
4.1.8 State wise Yield of Maize .....	139
4.1.9 State wise Yield of Total Pulses .....	141
4.1.10 State wise Yield of Gram .....	142
4.1.11 State wise Yield of Tur .....	143
4.1.12 State wise Yield of Total Oilseeds .....	144
4.1.13 State wise Yield of Kharif Oilseeds .....	145
4.1.14 State wise Yield of Rabi Oilseeds .....	146
4.1.15 State wise Yield of Groundnut .....	147

4.1.16	State wise Yield of Rapseed & Mustard .....	149
4.1.17	State wise Yield of Linseed .....	150
4.1.18	State wise Yield of Safflower .....	151
4.1.19	State wise Yield of Sunflower .....	152
4.1.20	State wise Yield of Soyabean .....	154

**4 (B) Area and Yield under High Yielding Varieties**

4.2.1	Area under High Yielding Varieties of Rice in Major States .....	155
4.2.2	Area under High Yielding Varieties of Jowar in Major States .....	157
4.2.3	Area under High Yielding Varieties of Bajra in Major States .....	158
4.2.4	Area under High Yielding Varieties of Maize in Major States .....	159
4.2.5	Area under High Yielding Varieties of Wheat in Major States .....	160
4.2.6	Yield of Local Variety of Rice in Major States .....	161
4.2.7	Yield of Local Variety of Jowar in Major States .....	163
4.2.8	Yield of Local Variety of Bajra in Major States .....	164
4.2.9	Yield of Local Variety of Maize in Major States .....	165
4.2.10	Yield of Local Variety of Wheat in Major States .....	166
4.2.11	Yield of High Yielding Variety of Rice in Major States .....	167
4.2.12	Yield of High Yielding Variety of Jowar in Major States .....	169
4.2.13	Yield of High Yielding Variety of Bajra in Major States .....	170
4.2.14	Yield of High Yielding Variety of Maize in Major States .....	171
4.2.15	Yield of High Yielding Variety of Wheat in Major States .....	172

**5. Area, Production and Yield of Horticulture & Plantation Crops**

5.1	Area and Production of Horticulture Crops.....	173
5.2	State wise Area, Production of various Horticultural Crops.....	177
5.3 (a)	All-India Area, Production and Yield of Potato.....	179
5.3 (b)	Area, Production and Yield of Potato in major Potato Producing States.....	181
5.4 (a)	All-India Area, Production and Yield of Onion.....	182
5.4 (b)	Area, Production and Yield of Onion in major Onion producing States.....	183
5.5 (a)	All-India Area Production and yield of Coconut.....	184
5.5 (b)	Area, Production and Yield of Coconut in major Coconut Producing States.....	186
5.6 (a)	All-India Area, Production and Yield of Cashew nut.....	187
5.6 (b)	Area, Production and Yield of Cashew nut in major Producing States.....	188
5.7	All-India Area, Production and Yield of Arecanut and Banana.....	189
5.8	All-India Area, Production and Yield of Garlic and Ginger.....	190
5.9	All-India Area, Production and Yield of Sweet Potato and Tapioca .....	191
5.10	All-India Area, Production and Yield of Turmeric, Chilies and Coriander.....	192
5.11	All-India Area, Production and Yield of Cardamom and Pepper.....	194

**6. Index Numbers and Growth Rates**

6.1	Compound Growth Rates of Area, Production and Yield of Principal Crops .....	195
-----	---	-----

6.2	Growth Rates of Area of Principal Crops in India from 1994-95 to 20011-12.....	197
6.3	Growth Rates of Production of Principal Crops in India from 1994-95 to 2011-12 .....	199
6.4	Growth Rates of Yield of Principal Crops in India from 1994-95 to 2011-12.....	201
6.5 (a)	All India Index Number of Area of Principal Crops .....	203
6.5 (b)	All India Index Number of Production of Principal Crops .....	205
6.5 (c)	All India Index Number of Yield of Principal Crops.....	207
<b>7. Area, Production and Yield of Major Crops in Different Countries</b>		
7.1	Area, Production and Yield of Principal Crops in Various Countries.....	209
7.2	India's Position in World Agriculture .....	213
<b>8. Minimum Support Prices / Marketed Surplus Ratios</b>		
8.1	Minimum Supprt Prices of Various Agriculture Commodities .....	215
8.2	Central Issue Prices of Rice, Wheat and Coarse Grains .....	216
8.3	Cost Estimates of Principal Crops-2009-10.....	217
8.4	Marketed Surplus Ratio (MSR) of Important Agricultural Commodities in Various States .....	221
<b>9 Procurement by Public Agencies</b>		
9.1 (a)	State-wise Procurement of Rice and Wheat in Major Producing States.....	225
9.1 (b)	State-wise Procurement of Coarse Grains in Major Producing States.....	227
9.2 (a)	State wise Cotton Purchases by Cotton Corporation of India.....	228
9.2 (b)	Procurement of Cotton by NAFED.....	229
9.3	State-wise Purchases of Raw Jute .....	230
9.4	Procurement of Oilseeds NAFED Under Price Support Scheme (PSS).....	231
9.5	Procurement of Onion by NAFED .....	234
<b>10. Per Capita Net Availability</b>		
10.1	Per Capita Net Availability of Foodgrains (Per day) in India .....	235
10.2	Per Capita Net Availability of Foodgrains (Per Annum) in India .....	236
10.3	Per Capita Availability of Certain Important Articles of Consumption .....	237
10.4 (a)	Trends in percentage composition of consumer expenditure since 1987-88.....	239
10.4 (b)	Per capita Consumption of Different Commodities.....	240
<b>11 Consumption and Stocks</b>		
11.1 (a)	Stock of Foodgrains in the Central Pool.....	242
11.1 (b)	Buffer Stock Norms for Foodgrains.....	242
11.2	Consumption and Stocks of Raw Jute .....	243
<b>12. Imports / Exports / Inflation Rates</b>		
12.1	India's Imports and Exports of Agricultural Commodities .....	244

12.2	India's Imports of Agricultural Products .....	245
12.3	India's Exports of Agricultural Products .....	247
12.4	Tariffs and Bound Rates on Major Agricultural Commodities / Groups.....	250
12.5 (a)	Trends in Wholesale Price Index of Food grains.....	253
12.5 (b)	Growth Rates of Wholesales price Index of food grains.....	254
12.6 (a)	Trends in Wholesale Price Index of Commercial Crops.....	255
12.6 (b)	Growth rate of Wholesale Price Index of Commercial Crops.....	257

### **13 Land Use Statistics**

13.1	Agricultural Land by Use in India.....	259
13.2	Selected Categories of Land Use.....	261
13.3	Gross Cropped Area Percentage Distribution.....	263
13.4	Percent coverage of Irrigated Area under Principal Crops .....	264
13.5	Agricultural Land by Type of Use.....	266
13.6	Potential Created under Accelerated Irrigation Benefit Programme (AIBP).....	272

### **14. Inputs**

14.1	Production and Use of Agricultural Inputs in India.....	273
14.2	All-India Consumption of Fertilizers in Terms of Nutrients (N, P & K).....	275
14.3	Consumption, Production and Import of Fertilizers.....	276
14.4(a)	State-wise Consumption of Fertilizers.....	278
14.4(b)	State-wise Estimated Consumption of Fertilizer per Hectare.....	280
14.5(a)	Fertilizer Consumption of Agricultural Land in selected Countries.....	282
14.5(b)	Fertilizer Consumption of Arable Land & Land under permanent Crops in selected Countries.....	283
14.6	Application of Fertilizers on Paddy and Wheat in India.....	284
14.7	Crop-wise Distribution of Certified/ Quality Seeds.....	286
14.8 (a)	Consumption of Electricity for Agricultural Purposes.....	290
14.8 (b)	State-wise Consumption of Electricity for Agriculture purpose.....	291
14.9	Flow of Institutional Credit to Agriculture Sector.....	293
14.10	State-wise Number of Kisan Credit Cards Issued.....	294
14.11 (a)	State-wise National Agricultural Insurance Scheme (NAIS).....	295
14.11 (b)	Season- wise National Agricultural Insurance Scheme (NAIS).....	297
14.12 (a)	State-wise Pilot Weather Based Crop Insurance Scheme (WBCIS).....	299
14.12 (b)	Season- wise Pilot Weather Based Crop Insurance Scheme (WBCIS).....	300
14.13 (a)	State-wise Pilot Modified National Agricultural Insurance Scheme (MNAIS).....	301
14.13 (b)	Season- wise Pilot Modified National Agricultural Insurance Scheme (MNAIS).....	303
14.14	Pilot Coconut Palm Insurance Scheme (CPIS).....	304

**15. Agricultural Census**

## **Methodology of Crop Estimation**

### **1.1 Introduction**

The Directorate of Economics and Statistics (DES) releases estimates of area, production and yield in respect of principal crops of foodgrains, oilseeds, sugarcane, fibers and important commercial and horticulture crops. These crops together account for nearly 87% of agriculture output. The estimates of crop production are obtained by multiplication of area estimates by corresponding yield estimates. The estimates of area and yield rates assume prime importance in the entire gamut of agricultural statistics.

### **1.2 Area Statistics**

From the point of view of collection of area statistics, the States in the country are divided into three broad categories:

The first category covers States and UTs which have been cadastrally surveyed and where area and land use statistics are built up as a part of the land records maintained by the revenue agencies (referred to as "Land Record States" or temporarily settled states). The system of land records is followed in 17 major states of Andhra Pradesh, Assam (excluding hilly districts), Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Madhya Pradesh, Maharashtra, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and Uttarakhand and 4 UTs of Chandigarh, Delhi, Dadra & Nagar Haveli and Pondicherry. These States/UTs account for about 86% of reporting area and are covered under Timely Reporting Scheme (TRS) under which 20% villages are selected at random for complete area remuneration.

The second category covers States where area statistics are collected on the basis of sample surveys. A scheme for Establishment of an Agency for Reporting of Agricultural Statistics (EARAS) has been introduced in these states, viz., Kerala, Orissa and West Bengal, and later extended to Arunachal Pradesh, Nagaland, Sikkim and Tripura. The scheme envisages, inter-alia, estimation of area through sample surveys in a sufficiently large sample of 20% villages/ investigator zones. These states account for about 9% of reporting area.

The third category covers the hilly districts of Assam, rest of the states in North-Eastern Region (Other than Arunachal Pradesh, Nagaland, Tripura and

Sikkim), Goa, UTs of Andman & Nicobar Islands, Daman & Diu and Lakshwadeep where no reporting agency had been functioning, the work of collection of Agricultural Statistics is entrusted with the village headmen. The area statistics in these states are based on impressionistic approach. These areas/states account for 5% of the reporting area.

### **1.3 Yield Estimates**

The second most important component of production statistics is yield rates. The yield estimates of major crops are obtained through analysis of Crop Cutting Experiments (CCE) conducted under scientifically designed General Crop Estimation Surveys (GCES). At present over 95% of the production of foodgrains is estimated on the basis of yield rates obtained from the CCEs. Field Operations Divisions (FOD) of the National Sample Survey Organization (NSSO) has been providing technical guidance to the States and Union territories for organizing and conducting Crop Estimation Surveys for estimating yield rates of principal crops. In addition, NSSO in collaboration with States/Union Territories implements sample check programmes on area enumeration work, area aggregation and conduct of crop cutting experiments under the Scheme for Improvement of Crop Statistics (ICS). While executing the programme of sample checks on crop cutting experiments, the FOD associates itself with the operational aspects of the conduct of crop cutting experiments right from selection of sample villages, training of field staff to the supervision of field work, and in the process, gathers micro level information relating to conduct of crop cutting experiments for estimation of crop yield. The results of Crop Estimation Surveys are analyzed and annual publication entitled "Consolidated Results of Crop Estimation Surveys on Principal Crops" is brought out by the NSSO regularly.

The primary objective of GCES is to obtain fairly reliable estimates of average yield of principal food and non-food crops for States and UTs which are important from the point of view of crop production. The estimates of yield rates thus arrived at are generally adopted for the purposes of planning, policy formulation and implementation. The CCEs consist of identification and marking of experimental plots of a specified size and shape in a selected field on the principle of random sampling, harvesting and threshing the produce and recording of the harvested produce for determining the percentage recovery of dry grains or the marketable form of the produce.

#### 1.4 Coverage

The crop-wise details of number of experiments planned under GCES during 2008-09 are given in table 1.1:

**Table 1.1**  
**No. of Experiments Planned under GCES During 2008-2009**

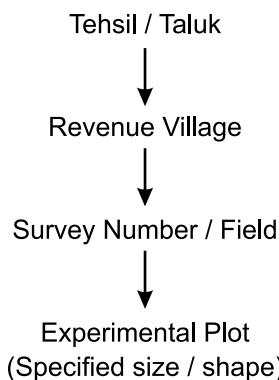

<i>Crop Type/Crop</i>	<i>No. of Experiments Planned</i>		
	<i>Kharif</i>	<i>Rabi</i>	<i>Total</i>

### 1.5 Sampling Design

Stratified multi-stage random sampling design is generally adopted for carrying out GCES with tehsils/taluks/revenue inspector circles / CD blocks / anchals etc. as strata, revenue villages within a stratum as first stage unit of sampling, survey numbers / fields within each selected village as sampling unit at the second stage and experimental plot of a specified shape and size as the ultimate unit of sampling as depicted in figure 1.1.

**Figure 1.1  
Sampling Design For GCES**

In each selected primary unit, generally 2 survey numbers/fields growing the experimental crop are selected for conducting CCE. Generally, 80-120 experiments are selected in a major crop growing district, where a district is considered as major for a given crop if the area under the crop in the district exceeds 80,000 hectares or lies between 40,000 and 80,000 hectares but exceeds the average area per district in the State. Otherwise, district is considered a minor for a given crop. Experiments in minor districts are so adjusted that the precision of the estimates is fairly high and the workload on the field staff is manageable. On an average, about 44 or 46 experiments are planned in a minor district. The number of experiments allotted to a district is distributed among the strata within the district roughly in proportion to the area under the crop in the stratum.

### 1.6 Advance Estimates of Area and Production

The period of an agricultural crop year is from July to June, during which various farm operations from preparation of seed bed, nursery, sowing, transplanting various inter-culture operations, harvesting, threshing etc. are carried out. Different crops are grown during the agricultural seasons in the crop year.

Final estimates of production based on complete enumeration of area and yield through crop cutting experiments become available much after the crops are actually harvested. However, the Government requires advance estimates of production for taking various policy decisions relating to pricing, marketing, export/import, distribution, etc. Considering the genuine requirement of crop estimates much before the crops are harvested for various policy purposes, a time schedule of releasing the advance estimates has been evolved. These estimates of crops are prepared and released at four points of time during a year as enumerated below.

### **1.7 First Advance Estimates**

The first advance estimates of area and production of kharif crops are prepared in September every year, when south-west monsoon season is about to be over and kharif crops are at an advanced stage of maturity. This coincides with the holding of the National Conference of Agriculture for Rabi Campaign, where the State Governments give rough assessment of their respective kharif crops. The assessment, is made by the State Governments based on the reports from the field offices of the State Department of Agriculture. They are mainly guided by visual observations. These are validated on the basis of inputs from the proceedings of Crop Weather Watch Group (CWWG) meetings, and other feedback such as relevant availability of water in major reservoirs, availability/supply of important inputs including credit to farmers, rainfall, temperature, irrigation etc.

### **1.8 Second Advance Estimates**

The second advance estimates are made in the month of January every year when the advance estimates of kharif crops prepared during the National Conference of Agriculture for Rabi Campaign may undergo a revision in the light of flow of more precise information from the State Governments. Around this time, the first advance estimates of rabi crops are also prepared. The Second Advance Estimates then cover the second assessment in respect of Kharif Crops and the first assessment in respect of Rabi Crops.

### **1.9 Third Advance Estimates**

The third advance estimates are prepared towards the end of March/beginning of April every year, when the National Conference on Agriculture for Kharif campaign is convened and the State Governments come up with their assessments for both kharif and rabi crops. The earlier advance estimates of both kharif and rabi seasons are firmed up/ validated with the information available with State Agricultural Statistical Authorities (SASAs), remote sensing data, available with Space Application Centre, Ahmedabad as well as the proceedings of CWWG.

### **1.10 Fourth Advance Estimates**

The fourth advance estimates are prepared in the month of June /July every year, when the National Workshop on Improvement of Agricultural Statistics is held. Since most of the rabi crops get harvested by the end of May, SASAs are in a position to supply the estimates of both kharif and rabi seasons as well as likely assessment of summer crops during the National Workshop. Like the third advance estimates, the fourth advance estimates are duly validated with the information available from other sources.

### **1.11 Final Estimates**

Under the existing system of crop estimation, the fourth advance estimates are followed by final estimates in December / January of the following agricultural year. The main factors contributing to the relatively large number of crop estimates are the large variations in crop seasons across the country and the resulting delay in the compilation of yield estimates based on crop cutting experiments. As agriculture is a State subject, Central Government depends upon State Governments for accuracy of these estimates. For this purpose, State Governments have setup High Level Coordination Committees (HLCC) comprising, inter-alia, senior officers from their departments of Agriculture, Economics & Statistics, Land Records and NSSO (FOD), IASRI, DES from Central Government for sorting out problems in preparation of these estimates in a timely and orderly manner.

### **1.12 Forecasting Agricultural output using Space, Agro-meteorology and Land based observations (FASAL)**

Timely availability of reliable information on agricultural output and other related aspects is of great significance for planning and policy making particularly, in the management of concerns in areas such as food security, price stability, international trade etc. The information is extremely useful in identifying problem areas and the nature of required intervention in terms of spatial, temporal and qualitative inferences. However, the existing system of agricultural statistics, in spite of established procedures and wide coverage, has inherent limitations in the matter of providing an objective assessment of crops at the pre-harvesting stages with the desired spatial details.

In order to enhance the capabilities of the existing system of crop forecasts and crop estimation, Ministry considered the introduction of technological advancements and the adoption of emerging methodologies such as Remote Sensing (RS), Geographic Information System (GIS) etc. Accordingly, in the year 1987, the Department of Agriculture & Cooperation (DAC) sponsored a project called "Crop Acreage and Production Estimates

(CAPE)" with the objective of developing methodologies using Remote Sensing (RS) techniques for crop area and production forecasting. The project was implemented through the Space Application Centre (SAC), Ahmedabad and provided the platform for development and standardization of basic procedures, models, and software packages for crop area and production forecasting, using remote sensing and weather data. The project successfully demonstrated national level forecast of wheat and kharif rice, in addition to making district level pre-harvest production forecasting of cotton, rapeseed /mustard and rabi sorghum in their major growing regions, in the country.

Besides Remote Sensing, other important inputs such as weather data, land based observations and economic parameters influencing farmers' decisions, also serve as complementary and supplementary information for making crop forecasts. While Crop forecasting with RS technique required using the data when crop has sufficiently grown, forecasting at sowing stage is attempted through econometric and agro-met models using previous years' crop acreage and production data, market prices, current season weather data etc. Thus, an approach which integrates inputs from these diverse sources was needed to make forecasts of desired coverage, accuracy and timeliness and the concept of "Forecasting Agricultural output using Space, Agro-meteorology and Land based observations" or FASAL was devised. The scheme was approved as a central sector plan scheme of Directorate of Economics & Statistics, DAC and is operation since Aug. 2006. The scope of work of the FASAL scheme involved developing Econometric, Agromet and Remote Sensing based model to generate crop forecasts at National, State and District level. Thus, multiple forecast of 11 major crops namely Rice (Kharif & Rabi), Jowar (Kharif & Rabi), Maize, Bajra, Jute, Ragi, Cotton, Sugarcane, Groundnut (Kharif & Rabi), Rapeseed & Mustard and Wheat were envisaged at National/State/District level depending on the status of technology available.

In order to give further impetus to use Remote Sensing in Agriculture, implementation strategy of the FASAL scheme was revised in March, 2011. The revised strategy inter-alia envisaged transfer of existing operational crop forecast and drought assessment Remote Sensing methodologies developed by Indian Space Research Organization (ISRO) to a new centre to be created in the DAC itself allowing ISRO to focus on R&D on the RS methodology for remaining crops and fine tuning of the existing RS methodologies on crop and drought assessment. In pursuance of the decisions contained in the approved SFC Memo of the FASAL scheme, a new centre, Mahalanobis National Crop Forecast Centre (NCFC) has been created as an attached office of DAC with a view to prepare multiple in season crop forecasts for selected major crops and

assessment of drought situation using state of the art techniques and methodologies developed and transferred by ISRO. The centre has started implementing the crop forecast methodologies developed by ISRO as part of the RS component of FASAL scheme and drought assessment under National Agricultural Drought Assessment and Monitoring System (NADAMS) project. Integration of forecasts based on RS methodology, Econometric parameters, Agro-met models and State Agricultural Statistics Authorities will be undertaken by the Centre. With time, it will also take up the work related to soil-health, rain-fed area assessment, horticulture, cropping system, damage due to natural calamities etc. Apart from meeting the Nation's requirement of regular monitoring. NCFC will also take up, in future, the monitoring of agricultural prospects of other countries.

**Table 2.3 (a)**  
**Population and Agricultural Workers**  
*(In Millions)*

Year	<i>Total</i>	Average	Rural	Agricultural Workers		
				<i>Population</i>	<i>Annual Exponential Growth Rate (%)</i>	<i>Cultivators</i>
1	2	3	4	5	6	7
1951	361.1	1.25	298.6 (82.7)	69.9 (71.9)	27.3 (28.1)	97.2
1961	439.2	1.96	360.3 (82.0)	99.6 (76.0)	31.5 (24.0)	131.1
1971	548.2	2.22	439.0 (80.1)	78.2 (62.2)	47.5 (37.8)	125.7
1981	683.3	2.20	523.9 (76.7)	92.5 (62.5)	55.5 (37.5)	148.0
1991	846.4	2.14	628.9 (74.3)	110.7 (59.7)	74.6 (40.3)	185.3
2001	1028.7	1.95	742.6 (72.2)	127.3 (54.4)	106.8 (45.6)	234.1
2011*	1210.2	1.64	833.1 (68.8)	na	na	na

*Notes :*

1. For 2001, figures include estimated figures for those of the three sub-divisions viz. Mao Maram, Paomata and Purul of Senapati district of Manipur as census results of 2001 Census in these three sub-divisions were cancelled due to technical and administrative reasons.
2. The 1991 Census could not be held owing to disturbed conditions prevailing in Jammu & Kashmir. Hence the population figures for 1991 of Jammu & Kashmir have been worked out by 'interpolation'. The data on workers in columns 5-7 exclude J & K.
3. The 1981 census could not be held in Assam. The figures for 1981 for Assam have been worked out by interpolation. The data on workers in col. 5-7 exclude Assam.
4. Figures within parentheses in column 4 are percentages to the total population.
5. Figures within parentheses in columns 5 and 6 are percentages to column 7.
