

Success Story-Panruti farmer Bhathusha

Bhathusha
Villupuram,
Arasambattu,
Sankarapuram
Mobile: 08903555154

My name is Mr. Bhathusha ,35 years old male from Arasambattu village, Sankarapuram post and Taluk. Basically my family is farming one there are totally 5 members in our family among them 3 members are adult and 2 children's. As my father and grandfather were practicing farming so I got interested in farming and my main occupation is farming and allied activities. We have owned 3 acres of land in that 2 acres is garden and 1 acres is dry land. The crops which cultivated in our farm are Brinjal and Bhendi are the main crops, among these Bhendi is the main source of income for my family.

I am facing many problems and challenges in farming as the source of water through bore well its going deeper and deeper every year so water scarcity is the main problem. Whenever there is need of water to the crops we don't have current at that time power problem per day 3 hours it's also playing the major role for this problem. As I have started farming from last one decade there are many challenges I have faced in agriculture. In addition to this labour problem we won't get labours in time and the labour cost is rising day by day. For marketing of our product we depend on the Panruti Market, Thalaivasal markets. Presently existing market channel is, as soon as we harvest the produced and take them to markets on our own transportation cost and we sell it to the commission agents or traders in the market and the market information sourcing are either we get the market information from the fellow farmers who use to visit the market or through calling to the market and now we are getting it on our hand as a firsthand information through DMI through SMS. We won't get the expected rates it depends on the traders, though we come to know about the prices in the market again they fix the prices on quality of produce these are the challenges specific to the marketing.

Experiences related to DMI

One day I met an officer in farmers meeting, Agricultural exhibition at villupuram. He told me about the DMI. I enrolled my number with the help of

Panruti Market analyst R.Karthik he told me about DMI in detail. It helps me to get the market price and no need to go for market often so i registered to DMI.

I have enrolled my number for the commodity Bhendi Panruti market and Thaivasal Market . I don't know how to check all the information about DMI through net but none of any members in my family are access to the internet. I am lucky that getting the information on my Forme808 cell phone. I felt good , first time I heard about that through DMI we can get daily market information, I was excited. The DMI was useful, as it is giving daily market information about the different perishable commodities. Therefore we can harvest our produce accordingly and get higher prices. I utilizing this service by comparing the prices at different market that at Panruti Market and Trichy Gandhi Market and finally taking my product where there is higher price prevailing on that day. I can say that it was helped me indirectly and I gained financially.

As ,I got benefited by the DMI I felt it will be useful for other farmers also. Therefore I have disseminated this information to the 5 of my farming friends. There is no other service like DMI and I have not come across any of such marketing information as like DMI. I can rate this service as good. Still there is a scope for improvement in the DMI service by giving the quantity of commodities which is daily arriving in the market; it will be much helpful to the users. As I am getting the information in English, I am not fully comfortable, if it comes in regional language (Tamil) it will be much better as all of my family members can access to the information given by DMI. You can make it more popular by advertising it in News paper and other Medias. I am very happy that I am getting such a valuable information and I am ready to pay for this service if I get a information on particular commodities which is on my demand. Finally I Wish my sincere thanks to DMI.
