

## Murugaraj Farmer - Success story

Name: Murugaraj  
State: Tamil Nadu  
District: Coimbatore  
26A, Vellipalayam Road,  
Mettupalayam  
Mobile: 09842226328

My name is Mr. S. Murugaraj. 47 years old male of Mettupalayam. Basically I am a farmer as well as wholesale merchant for flowers. As my father and grandfather were practicing farming I got interested in farming and my main occupation is farming and allied activities. We have owned 5 acres of land mainly cultivating flowers i.e. Jasmine, Jathi, Mullai.

I am facing many problems and challenges in farming as the source of water is through bore well its going deeper and deeper every year so water scarcity is the main problem. Whenever there is need of water to the plants. We don't have current that time so power problem per day 2 hours it's also playing the major role for this problem. As I have started farming from last 20 years there are many challenges I have faced in agriculture. In addition to this labour problem we won't get labours in time and the labour cost is rising day by day. Marketing is not a problem for me because I am having wholesale shop in Mettupalayam. Presently existing market channel is, as soon as we harvest the produce and take to markets on our own transportation cost and we sell it to the traders in the market and the market information sourcing are either We get the market information from the fellow farmers who use to visit the market or through calling to the market and now we r getting it on our hand a firsthand information through DMI through SMS. We won't get the expected rates it depends on the traders, though we come to know about the prices in the market again they fix the prices on quality of produce these are the challenges specific to the marketing.

## Experiences related to DMI

One day I met an officer in Mettupalayam, he told me about the DMI. I enrolled my number with the help of TNAU Project analyst M.Venkataraman he told me about DMI in detail. It helps me to get the market price and no need to go market often so I registered to DMI.

I have enrolled my number for the commodity Jasmine Coimbatore market and Bangalore Market. I don't know how to check all the information about DMI through net but none of any members in my family are access to the internet. I am lucky that I am getting the information on my Mobile. I felt good when I first time heard about DMI as I am going to get daily market information so I was excited. The DMI useful as it is giving daily market information about the different perishable commodities. Therefore we can harvest our produce accordingly and get higher prices. I am making use of this service by comparing the prices at different market that is at Coimbatore Market and Bangalore Market and finally I am taking my produce where there is higher price prevailing on that day. I can say that it has helped me indirectly and I have gained financially.

As I got benefited by the DMI I felt it will be useful for other farmers also therefore I ask my relatives farmers to enroll themselves in DMI. There is no other service like DMI I have not come across any of such marketing information as like DMI. I can rate this service as good. Still there is a scope for improvement in the DMI service by giving the quantity of commodities which is daily arriving in the market; it will be much helpful to the users. As I am getting the information in for only one flower for 2 markets, Can u help me to give information for price 5 [commodities] flowers because I am carry only one mobile. Actually I am asking 5 [commodities] flowers cost per day to your Analyst but he says that I can get only one flower Price for 2 markets...Is it possible to send 5 [commodities] flowers cost to my mobile through DMI? You can make it more popular by advertising it in News paper d other Medias. I am very happy that I am getting such a valuable information and I am possible to give 5 flowers price for my mobile.I am ready to pay for this service if I get a information on particular commodities which is on my demand. Finally I wish my sincere thanks to DMI.
