

Case Study of SS Vegetables

Name: Mr. Kumar
State: Tamil Nadu
Address: Annaji Rao Street,
14, Anna Daily Market,
Mettupalayam

My name is Kumar. I Don't Like to say My qualification .But I proud to say that i am a good Businessmen having 15years of experience in running a shop of selling all vegetables. I am running vegetable shop in Mettupalayam,. Business is my main profession. I involve in Marketing too. I learnt all type of business practice from my father only.

We use to Purchase vegetables from Mettupalayam through Auction. We mainly rely on Coimbatore Markets for purchase of vegetables. But Nilgiris vegetables are available here itself.

I met ur Analyst in Mettupalayam market, There he explains all the ongoing activities of the Directorate of Extension Education, TNAU, Cbe. And I came to know that DMI is the collaborative project run by TNAU (Tamil Nadu Agricultural University), Coimbatore & C-DAC (Centre for Development of Advanced Computing), Hyderabad. At present DMI contains 13 major markets functioning in and around Tamil Nadu. From the selected market, the analysts have to collect the price structure for each and every commodity and they have to update the information in the INDG website. The updated information is available in the INDG website called www.indg.in/india/market_information and TNAU website called www.tnau.ac.in. The uploaded market information is also sent in the form of text message to the mobile number of each and every farmer. The SMS data's are available with two markets. This helps to compare the price of two near markets. So the farmers can sell their produce at a place where he will fetch a very high profit.

This is the first time in my lifetime I heard this kind of website running for farmers. With the help of the market analyst, now I have enrolled myself in DMI to get Vegetable prices for Coimbatore and Mettupalayam markets. I have enrolled for ur SMS service for two markets Mettupalyam-Coimbatore for Brinjal.

I request all the farmers to enroll their mobile number in the DMI service. This helps us to market the harvested produces to suitable market to fetch premium price for your hard work. My Sincere thanks to all the official staffs who working behind the DMI.
