Average wind speed is expected to be around 12 - 18 km per hour. The wind direction will be south west.

**Agro Advisory**

| Crop | Stage | Advisory |
|------|-------|----------|
|------|-------|----------|

|         |            |  |
|---------|------------|--|
| General |            | Farmers are advised to provide adequate drainage facilities to all crops due to light rainfall forecast.   |
|         |            | Farmers are requested to download and utilize the agricultural based mobile apps suggested by TNAU (TNAU AAS, Meghdoot and DAMINI).  |
| Rice    | Nursery    | Considering favourable weather, prepare nursery for samba crop and make sowing.  |
|         | Main field | By utilizing weather condition land can be prepared for samba rice cultivation before rain.  |
| Banana  |            | Provide support with wooden poles to avoid lodging of tree due to wind.  |
| Cattle  | Cow        | Since the onset of rainy season may attract mosquitoes breeding, farmers are advised to give Notchi leaves fumigation in dairy barn. Insect population has detrimental effect on milk quality. |

**SMS advisory**

By utilizing weather condition land can be prepared for samba rice cultivation before rain.
