Agro Advisory

General		For rice fallow pulse cultivation, sow black gram / green gram seeds after rice harvest.
Rice	Harvest	Farmers are advised to harvest matured paddy immediately in order to protect from expected rainfall.
		Harvested paddy seeds before rain may be dried at moisture less than 13% using the current weather condition to prevent stored pests damage.
Banana		Provide support with wooden poles to avoid lodging of tree due to rain and wind.
Cattle	Cow and Goat	The prevailing night time temperature is favorable for pneumonia formation in cattle. To reduce the risk, suitable night time shelter with enough heating provision must be given.

SMS advisory

For rice fallow pulse cultivation, sow black gram / green gram seeds after rice harvest.
