### Weather Summary for Thiruvvarur district

According to district forecast issued by the India Meteorological Department for Thiruvvarur district, sky will be cloudy. Light rainfall expected on 23.05.2026 to 27.05.2026. Maximum temperature is expected to be around 37 - 38 °C. Minimum temperature is expected to be around 26 - 27 °C. Morning relative humidity is expected to be around 83 per cent and evening relative humidity is expected to be around 75 per cent. Average wind speed is expected to be around 4 km per hour and the wind directions will be from south west direction.

### Agro Advisory

<b>General</b>		Postpone/avoid irrigation to all crops depending upon rain condition.
		Link the drainage channel with farm ponds towards efficient water drainage besides the rain water storage.
<b>Rice</b>	<b>Main Filed</b>	Prevailing weather condition is suitable for weeding and hence first hand weeding can be given on 20 to 25 days after transplanting.
<b>Banana</b>		Provide support with wooden poles to avoid lodging of tree due to wind.
<b>Cattle</b>	<b>Cow and Goat</b>	Calves above 3 months and sheep and goat above 2 months should be vaccinated against Foot and Mouth disease

### **SMS advisory**

Postpone/avoid irrigation to all crops depending upon rain condition.

**Director,  
TRRI, Aduthurai**
