Average wind speed is expected to be around 6 - 12 km per hour and the wind directions will be from south south west direction.

Agro Advisory

General		Postpone/avoid irrigation to all crops depending upon rain condition.
		Link the drainage channel with farm ponds towards efficient water drainage besides the rain water storage.
Rice	Main Filed	Prevailing weather condition is suitable for weeding and hence first hand weeding can be given on 20 to 25 days after transplanting.
Banana		Provide support with wooden poles to avoid lodging of tree due to wind.
Cattle	Cow and Goat	Calves above 3 months and sheep and goat above 2 months should be vaccinated against Foot and Mouth disease

SMS advisory

Postpone/avoid irrigation to all crops depending upon rain condition.
