The Editor,
Sir,

I request that the following message may kindly be published in your esteemed daily:

TNAU hosts Training Programme on Digital Agriculture, Internet of Things (IoT) and Innovative Agriculture

Tamil Nadu Agricultural University's Directorate of Extension Education in association with National Bank Staff College (NBSC), Lucknow, Uttar Pradesh inaugurated a three days training to Senior Officials of NABARD (GM & DGM) on "Digital Agriculture, Use of Internet of Things (IoT) and Innovative Agriculture" on 27th November 2023

Dr.P.P.Murugan, Director of Extension Education and Dr.D.Suresh Kumar, Director of Centre for Agriculture and Rural Development Studies (CARDS) greeted the officials of NABARD. They gladly shared the past collaborative efforts of TNAU and NABARD. The challenges and opportunities in Digital Farming and the Novel approach to reach small and marginal farmers through the Internet of Things (IoT) were also addressed during the inaugural ceremony.

The Staff Members of NBSC Mr.Esakimuthu Vadivelu and Shri Pankaj Kumar Tripathi during their felicitation address told the participants that, besides understanding the concepts, we need to identify technologies that can be implemented at the farm level, especially in small and marginal farmers through the farm sector promotion funds of NABARD.

Earlier, the participants were welcomed and were briefed on the theoretical and practical session coverage of the training by Dr.N.Anandaraja, Professor and Head of the Training Division.
