To
The Editor,
Sir,

Date: 20.11.2025

I request that the following message may kindly be published in your esteemed daily:

TNAU celebrate National Entrepreneurs Day 2025

The National Entrepreneurs Day was celebrated with great enthusiasm at Agricultural Engineering College and Research Institute, Coimbatore. The programme was presided over by Dr. A. Raviraj, Dean, who congratulated and encouraged the young entrepreneurs for their innovative product displays. In his presidential address, he highlighted the vast scope and emerging opportunities in food and energy sector entrepreneurship, motivating students to explore, innovate, and establish their ventures.

The Chief Guest, Dr. E. Somasundaram, Director Agri Business Development, TNAU, delivered an inspiring address, outlining the various funding avenues, incubation support, and entrepreneurial development facilities available at TNAU. He emphasized the university's commitment to nurturing student innovations and transforming them into viable business enterprises. As part of the celebrations, the “Stall Challenge” was organized by the MasonAGE Club, showcasing creative products and ideas from student entrepreneurs. The Best Stall Award and Best Entrepreneur Award were presented by the Chief Guest to outstanding participants who demonstrated innovation, product potential, and entrepreneurial spirit. Around 1000 students and faculty members visited the stalls and enjoyed the day.

The event echoed the theme “Dream – Display – Do”, motivating students not only to dream big, but also to confidently display their ideas and put them into action. The celebration marked a meaningful step in empowering young minds towards building a self-reliant entrepreneurial future.
