TNAU conducted Orientation Programme for I B.Tech. (Bioinformatics)

Students – Session on Identification of Exotic Species

Department of Plant Molecular Biology & Bioinformatics, CPMB&B, TNAU, Coimbatore, organized a special session on “Identification of Exotic Species” on 24th September 2026, as part of the Orientation Programme for the 2026 batch of I B.Tech. (Bioinformatics) students.

The session was delivered by Dr. V. S. Ramachandran, Retired Professor of Botany, Bharathiar University, Coimbatore, who shared his expertise on the identification and recognition of exotic plant species. The session highlighted the importance of understanding exotic species, their distinguishing characteristics, and their ecological significance. It also provided students with valuable insights into the role of plant identification in biodiversity conservation and environmental management.

The programme aimed to enhance students’ knowledge of plant diversity and develop their awareness of exotic species and their impact on ecosystems. The interactive session offered an opportunity for students to gain insights from an experienced academician and strengthened their foundational understanding of plant science and biodiversity.
