To  
The Editor,  
Sir,

Date: 22.01.2026

I request that the following message may kindly be published in your esteemed daily:

**TNAU's COXBIT and SST Microgreens inked MoA to Develop Microgreen Disc**

M/s. SST Microgreens is developing a seed disc with uniformly spaced seeds in a nutritious growth medium, enabling easy sowing, uniform germination and reduced seed wastage. The innovation promotes nutrient-rich microgreens that require minimal space and resources, offering a simple and efficient alternative to conventional microgreen trays for household and small-scale cultivation.

In this regard, Dr. N. Senthil, Director, Centre for Plant Molecular Biology and Biotechnology, on behalf of the Centre of Excellence in Biotechnology (COXBIT), TNAU, Coimbatore and, M/s. SST Microgreens, signed a Memorandum of Agreement (MoA) on 22.01.2026 in the presence of Dr. K. Subrahmanyam, Acting Vice-Chancellor and Registrar of TNAU, Coimbatore. In this ceremony, Dr. R. Umarani, Director, Seed Centre and Board of Director (COXBIT), Mr. R. Ramkumar, Chief Executive Officer (COXBIT) also joined.
