

Daily report sheet: Sugarcane Research Station, Melalathur 635 806

Name and designation of the BLTF member:

Dr.B.Rajendran, Professor and Head, SRS, Melalathur 635 806

Block: Gudiyatham of Vellore district

S. No	Date	Title of the programme	Name of the village covered	No.of participants in UPV	Subjects covered	Activities performed (Technology back strapping/success story/Exhibition/method demonstration etc. may be included)	Remarks
1.	14.04.2013	Uzhvar Peru Vizha	Seruvangi	250	--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district. --Soil testing and management of soil for higher productivity --Water conservation through micro irrigation in major crops. --Weed management --Integrated nutrient management and green manures --Integrated pest management	Lectures, Technology back strapping through boards and banners, demonstrations etc.	
			Chettikuppam	250	--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district. --Soil testing and management of soil for higher productivity	Lectures, Technology back strapping through boards and banners, demonstrations etc.	

					<p>--Water conservation through micro irrigation in major crops. --Weed management --Integrated nutrient management and green manures --Integrated pest management</p>		
2.	15.4.2013	Uzhvar Peru Vizha	Melmuttukoor	250	<p>--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district. --Soil testing and management of soil for higher productivity --Water conservation through micro irrigation in major crops. --Weed management --Integrated nutrient management and green manures --Integrated pest management</p>	Lectures, Technology back strapping through boards and banners, demonstrations etc.	
			Melalathur	250	<p>--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district. --Soil testing and management of soil for higher productivity --Water conservation through micro irrigation in major crops. --Weed management --Integrated nutrient management and green manures --Integrated pest management</p>	Lectures, Technology back strapping through boards and banners, demonstrations etc.	

3.	16.04.2013	Uzhvar Peru Vizha	Chinnalapalli	250	<p>--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district.</p> <p>--Soil testing and management of soil for higher productivity</p> <p>--Water conservation through micro irrigation in major crops.</p> <p>--Weed management</p> <p>--Integrated nutrient management and green manures</p> <p>--Integrated pest management</p>	Lectures, Technology back strapping through boards and banners, demonstrations etc.	
			Thattaparai	250	<p>--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district.</p> <p>--Soil testing and management of soil for higher productivity</p> <p>--Water conservation through micro irrigation in major crops.</p> <p>--Weed management</p> <p>--Integrated nutrient management and green manures</p> <p>--Integrated pest management</p>	Lectures, Technology back strapping through boards and banners, demonstrations etc.	
4	17.04.2013	Uzhvar Peru Vizha	Pankarisikuppam Sembedu	250	<p>--Latest Varieties released and Improved production technologies (IPT) like SRI in rice crop, SSI in sugarcane crop and specific high yielding techniques in major crops of Vellore district.</p>	Lectures, Technology back strapping through boards and banners, demonstrations etc.
